

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is an affront to viewers all around the country.

Broadcasting companies use the public airwaves free of charge, and are obligated by law to serve the public interest.

Sinclair's actions are clearly unethical and an abuse of the public trust. I consider their efforts to exert undue influence on voters abhorrent and I urge the FCC to take action against this type of activity.

Broadcasting companies should be scrutinized thoroughly and should not be allowed to subject the public to these flagrant displays of media bias and distortion.

It is very disturbing to see what happens when control of the media is put in so few hands.

Thank you
